

Information about REACH - Registration Evaluation Authorization and Restriction of Chemicals

Vienna, 6. November 2017

Dear valued customer,

referring to the REACH regulation EC 1907/2006, that came into effect on June 1, 2007 for all EC member states we declare:

Lunatone Industrielle Elektronik Ges.m.b.H. as a manufacturer of electronic devices is a downstream user according to the REACH regulation.

No substances should be released from our products in intended and normally foreseeable use. Therefore the products manufactured by Lunatone are not subject to registration obligation.

Due to our information obligation according to the REACH regulation, we are permanently in contact with our suppliers for components and chemical products to identify relevant substances and provide appropriate information along the supply chain.

According to article 33 we will provide information if any ingredients of our products are classified by the European Chemicals Agency ECHA as Substance of Very High Concern (SVHC) and have a mass proportion of more than 0,1% of the affected product.

Substances that are subject of authorisation are listed in the candidate list table of Substances of Very High Concern (SVHC).

On issuing date of this declaration our products don't contain any or less than 0,1% - in relation to weight – substances that are in any way registered at ECHA as chemicals of concern.

The listing of notified and registered substances can be looked up on the Website of the ECHA in the current version:

<https://echa.europa.eu/candidate-list-table>

<https://echa.europa.eu/information-on-chemicals/registered-substances>

In case of special queries please contact us for further information.
